INTRODUCTION

Welcome to the graduate program in the Department of Nutrition and Hospitality Management, one of five academic departments in the School of Applied Sciences at the University of Mississippi. Graduate study offers the opportunity to plan a focused program of study, expand knowledge and competencies, establish academic and professional expertise, and formulate a philosophy about your future profession. The quality of your graduate experience depends, to a great degree, upon the extent of your academic commitment and involvement. Under the departmental and university guidelines, students will assume the primary responsibility for the development and execution of your graduate experience.

To become familiar with the academic procedures and regulations concerning graduate students at UM, read the UM Graduate School Catalog at http://gradschool.olemiss.edu. Information provided in this handbook supplements the Graduate School Catalog, and describes policies and procedures specific to graduate programs in the Department of Nutrition and Hospitality Management, which may have additional requirements to the Graduate School policy.

The Graduate Program Coordinator (GPC) for the Department of Nutrition and Hospitality Management will serve as your initial contact for the graduate program. Graduate Faculty is also here to provide guidance. Do not hesitate to ask questions and talk to the faculty and staff in the department to plan your graduate study.

Yunhee Chang
Interim Department Chair, GPC, and Associate Professor

Effective as of March 20, 2019
PH.D. IN NUTRITION AND HOSPITALITY MANAGEMENT

PROGRAM OVERVIEW
The Doctor of Philosophy (Ph.D.) in Nutrition and Hospitality Management (NHM) program is housed within the Department of Nutrition and Hospitality Management. Students pursuing the Ph.D. in NHM degree choose from one of the two emphasis areas:

- Nutrition (with concentrations in Sport Nutrition, Nutrition Policy, or General Nutrition)
- Hospitality management

The program is designed to train and mentor students to become proficient teachers and researchers.

PROGRAM OF STUDY
The program consists of a minimum of 66 post-baccalaureate credit hours. The degree requirements are: 21 hours of core requirements; 15-18 hours of emphasis area requirements, of which 6 or more hours must be at 700-level; and 9-12 hours of supporting coursework at 500-700 levels, which may be selected from emphasis area courses and/or from outside of NHM; and 18 hours of dissertation. The Program of Study form can be found in the Appendix.

While no transfer credits are allowed in the doctoral program, doctoral students may request for a course waiver based on equivalent courses taken within 6 years prior to joining the program as long as at least 54 graduate credit hours including 18 hours of dissertation are completed at the university of Mississippi. All waiver requests for core courses must be submitted before the end of the first semester of enrollment. If the substituting course was taken after the student starts the doctoral program at UM, the waiver requests must be submitted within one (1) semester of the student’s return to the UM. Since the student’s Doctoral Advisory Committee approves the Plan of Study, which specifies the emphasis area requirements and supporting coursework tailored to each individual student’s goals and needs, for emphasis area or supporting coursework, the graduate faculty will consider waiver requests only after the Plan of Study has been approved by the Advisory Committee. All waiver requests must include the exact UM course number to be waived, the syllabus of the course taken, and a copy of the transcript showing the course grade.
Upon admission, the GPC will serve as the primary point of contact. Before the end of the third semester of enrollment, students must establish their Advisory Committee and notify the GPC. The student’s Academic Advisor, who is a graduate faculty member in the Department, will work with the student to establish the student’s Doctoral Advisory Committee. The Doctoral Advisory Committee recommends graduate coursework and other trainings appropriate for the student’s research interests and career goals; approves the Program of Study; and determines the student’s readiness for the Comprehensive Examination. Modifications to the Program of Study or to the Committee require an approval by the Doctoral Advisory Committee. Advisory Committees must consist of at least three graduate faculty members of the Department, who in most cases become members of the Dissertation Committee. A Doctoral Advisory Committee must be formed before the Form GS-5 Authorization to sit for a Comprehensive Examination is submitted, and may or may not include an external member.

**PRELIMINARY EXAMINATION**

There is no preliminary examination.

**DOCTORAL COMPREHENSIVE EXAMINATION**

All doctoral students must successfully complete the Comprehensive Examination. The Doctoral Comprehensive Examination assesses the student’s comprehension of core principles and body of knowledge in the discipline, as well as knowledge of research methods and statistics. The Comprehensive Examination is intended to test for the students’ ability to make original contributions in their course of study, not just the student’s current research project.

Students who have all the coursework completed or nearly completed (meaning that the student is in the final semester of coursework) may sit for the Comprehensive Examination. Students who wish to sit for the Comprehensive Examination must have Form GS-5 Authorization to Sit for the Comprehensive Examination approved by the Doctoral Advisory Committee and submitted to the GPC during the semester preceding the intended Comprehensive Examination. There should be at least a 90-day period between the approval of form GS-5 by the committee and the first day of the written examination.

The Doctoral Advisory Committee approves form GS-5 and functions as the Examining Committee of the Doctoral Comprehensive Examination. The Examining Committee administers the Comprehensive Examination by (1) scheduling the examination; (2)
preparing the questions and evaluating the written portion of the Comprehensive Examination; (4) conducting the oral portion of the Comprehensive Examination; and (5) deciding the outcome of the Comprehensive Examination. The Examining Committee may request the Department to provide a proctor for the written portion of the examination.

The written portion of the Comprehensive Examination will be taken in four 4-hour blocks where 8 hours are dedicated to general topics from suggested coursework (nutrition/hospitality); 4 hours specific to proposed research area; and 4 hours of research methods, all of which should be completed within 5 working days of the start of the examination. The student is required to type the answers using a University computer and a flash drive provided by the Chair of the Examining Committee. At the end of each day of the written Comprehensive Examination, the computer and the flash drive must be returned to the Chair of the Examining Committee.

Typed and bound or PDF copies of the examination must be distributed to the advisory committee on the first working day after the last day of the written portion of the Comprehensive Examination.

The oral portion of the Comprehensive Examination must be completed within 30-calendar days from the last day of the written examination. In the oral examination, the student is expected to answer questions from the Committee. Passing of the Comprehensive Examination requires unanimous affirmative vote of the Examining Committee. The Chair of the Committee will deliver the outcome to the GPC using Form GS-5.1 Report of the Comprehensive Examination Committee/Admission to Candidacy for the Doctorate Degree.

Students who do not pass the Comprehensive Examination in the first time can meet with the Examining Committee to review their weaknesses and schedule their second examination. The second examination may not take place in the same semester as the first examination, but must occur within one (1) calendar year of the first examination. Students who do not pass the second Comprehensive Examination will be changed to non-degree II status. (For more information, see UM Policy on Dismissal or Change in Status of Graduate Students.)

All examination copies are the property of the Examining Committee – the original copy of the written examinations shall be retained by the Committee Chair to become a part of the student’s permanent file. After the Comprehensive Examination are completed, either successfully or unsuccessfully, the Chair of the Examining Committee must provide a copy of the written examination and any grading sheets to the GPC.
If a student believes that the results of their Comprehensive Examination were based on prejudice, discrimination, capricious reasons, or factors unrelated to academic merit, appeals can be made within five (5) business days of receiving the results. Contact the Graduate School for the details of the appeals process.

**CANDIDACY**

Upon successful completion of the Comprehensive Examination and satisfactory completion of coursework, the student is admitted to candidacy and may submit a dissertation prospectus. A doctoral candidate must maintain continuous enrollment during regular semesters. (See Graduate Catalog for the definition of continuous enrollment.) An enrollment of at least 3 hours is required during the semester in which the degree is granted (1 hour of enrollment during the summer term).

**DOCTORAL DISSERTATION AND FINAL EXAMINATION**

Dissertation committees must consist of at least three graduate faculty members from the department, plus one member external to the department. The Chair of the Dissertation Committee must be a Full member of the Graduate Faculty. (See Graduate Catalog for Dissertation Committee Policy.)

There must be at least four (4) months between the successful defense of the prospectus and the defense of the dissertation. See Graduate Catalog for dissertation prospectus procedures. The defense of the dissertation is considered the final examination for a doctoral degree, and must be scheduled on or before the last day of class. Form GS-7 Authorization of the Final Oral/Written Examination must be filed at the Graduate School at least fourteen (14) days prior to the intended examination date. See Graduate Catalog for additional regulations.

**TIME LIMIT**

The Graduate School imposes a four(4)-year time limit on completion of formal coursework and the Comprehensive Examination for the doctoral degree. After passing the Comprehensive Examination, a student must complete all remaining requirements within five (5) calendar years.
DOCTORAL ADMISSION CRITERIA

Criteria for admission into the Ph.D. in NHM program are:

a. Baccalaureate degree
b. GPA
c. GRE
d. Personal Statement
e. English Proficiency (Only for the applicants whose native language is not English)

The Graduate Committee of the Department of Nutrition and Hospitality Management will review complete applications received by the deadline. Incomplete applications or materials received after the deadline may not be reviewed. Competitive applicants relative to the pool of applicants will be recommended for admission. In addition to the above criteria, other factors such as strength of letters of recommendation, work experience, availability of resources within the department, and equity considerations to enhance the diversity of the department may be taken into consideration.
PHD PROGRAM CHECKLIST

Before the end of the first semester of enrollment

☐ Waiver of core requirements requested

Before scheduling the doctoral Comprehensive Examination

☐ The Doctoral Advisory Committee formed
☐ Plan of Study approved by the Advisory Committee and submitted to the GPC

Before sitting for the doctoral Comprehensive Examination

☐ Form GS-5 submitted to the GPC in the preceding semester
☐ Coursework completed or in near completion
☐ GPA 3.0 or above with no pending “I” grade
☐ Currently enrolled in 3 graduate credit hours

Before submitting dissertation prospectus

☐ Doctoral candidacy established
☐ Dissertation Committee formed
☐ IRB application prepared or approved if applicable
☐ Continuous enrollment maintained

Before dissertation defense

☐ Dissertation prospectus in file at the Graduate School
☐ Form GS-7 submitted to the Graduate School at least 14 days prior to the intended defense date
☐ Final dissertation document provided to the Committee at least 7 days prior to defense
☐ 18 hours of dissertation credit completed or currently being completed
☐ Continuous enrollment maintained
MASTER OF SCIENCE IN FOOD AND NUTRITION SERVICES

PROGRAM OVERVIEW
The Master of Science (M.S.) in Food and Nutrition Services (FNS) program is housed within the Department of Nutrition and Hospitality Management. Students pursuing the M.S. in FNS degree choose from one of the two emphasis areas:

- Nutrition
- Hospitality Management

The degree prepares students for careers in established or emerging clinical or industrial settings; doctoral studies in nutrition, food service management, or hospitality management; or postsecondary teaching positions. The program is designed to provide students with a broad background in nutrition, food service management, and hospitality management; development of necessary analytical skills; and exposure to current research.

Goals/Mission Statement
The mission of the MS in Food and Nutrition Services is to prepare students for entry into nutrition-related or hospitality management-related fields of study and/or their industries with excellence and integrity.

Learning Outcomes

1. Students will be able to demonstrate how to interpret, evaluate, and use professional literature to make ethical, evidence-based practice decisions.

2. Students will be able to demonstrate effective and professional oral and written communication and documentation when communicating with individuals, professional groups, and the public.

3. Students will be able to incorporate professional knowledge with effective management and education techniques to facilitate food, nutrition and hospitality related behavior change.

4. Students will be able to use a decision making process to make decisions, to identify nutrition- or hospitality-related problems, and to determine and evaluate appropriate interventions.

5. Students will be able to apply knowledge of nutrition or hospitality management to enhance the wellbeing of individuals and groups.
6. Students will be able to apply management and business theories and principles to the development, marketing, and delivery of nutrition or hospitality programs or services.

To fulfill requirements to become a registered dietitian nutritionist (RDN), students may choose to apply to the Coordinated Program (CP) as a part of the M.S. degree program. The CP program is accredited by the Accreditation Council for Education for Nutrition and Dietetics (ACEND) and includes a supervised practice component in various local and regional health care and education facilities. (See Coordinated Program (CP) in Dietetics for more information.)

**PROGRAM OF STUDY**

The program consists of a minimum of 36 post-baccalaureate credit hours, of which up to 6 credit hours may be transferred from another university. The requirements for the M.S. in FNS degree are: 9 hours of program core requirements, 9 hours of emphasis area core requirements, 12-15 hours of electives, and 3-6 hours of non-thesis directed research or 6 hours of thesis.

The Program of Study form, which can be found in the Appendix, lists suggested electives. Relevant electives not on this form may be approved by the student’s Master’s Advisory Committee. Thesis and non-thesis directed research credits may not be used as electives.

Students are required to file with the GPC the Program of Study form signed by their Master’s Advisory Committee before enrolling for NHM 693, 697, or 699 credits or taking the master’s written comps, whichever is earlier. Once filed, any changes to the Program of Study would require approval of the Master’s Advisory Committee.

Add slips for courses offered in the department are signed by the GPC as needed.

**MASTER’S ADVISORY COMMITTEE**

Initially, the department will assign the GPC as the students’ Academic Advisor and primary point of contact. Once the student develops specific educational goals and identifies a graduate faculty member in the department to serve as their academic mentor, the mentor and the student will work together to form the Master’s Advisory Committee. The committee must consist of at least three graduate faculty members from the discipline (i.e., the department) in which the degree is sought. Under normal
circumstances, the student’s Academic Advisor will serve as Chair of the Master’s Advisory Committee. The Master’s Advisory Committee also serves as the Examining Committee of the student’s Final Oral/Written Examination. A formal request to form the committee must be filed electronically before the Plan of Study form is submitted to the department. (See Graduate School Forms and Manuals Library for the GS2 - Graduate Advisory Committee Requests [https://gradschool.olemiss.edu/current-students/forms-and-manuals-library/]).

**MASTER’S RESEARCH REQUIREMENT: THESIS OR NON-THESIS**

Students pursuing M.S. in FNS will select from two alternatives to satisfy the research component of the degree: thesis or directed research (non-thesis). The choice of thesis or non-thesis directed research is made in consultation with the student’s Master’s Advisory Committee based on the individual’s educational training and goals, and is declared in the Program of Study form.

**Thesis Option**

The primary objective of a thesis research component is to expand the existing knowledge base. The thesis must be a well-reasoned and original contribution to knowledge in the field of study, and provide evidence of high scholarly achievement. The student’s thesis examining committee is the primary source of guidance in the planning and preparation of the thesis. Instructions for preparation of the thesis are available from the Graduate School.

A minimum of 6 hours of thesis credit must be completed over at least two separate academic terms. The Program of Study form must have been filed with the GPC before students can enroll in thesis credits. A thesis proposal can be submitted and presented to the student’s Examining Committee for approval during or after the semester in which the student is enrolled in at least 1 hour of thesis credit. The thesis defense cannot be scheduled before the proposal is approved, and may not take place in the same semester during which the proposal is presented.

The thesis defense must be scheduled no later than 14 days prior to the intended date by submitting GS7 – Authorization for Final Oral/Written Examination form to the Graduate School. The thesis defense can be scheduled when the student has completed all other degree requirements including 6 hours of thesis credit, or the student is expected to complete them in the semester during which the defense takes place. The student must be enrolled in 3 or more graduate hours in the semester of the final exam (or 1 or more hours if the defense is during summer or intersessions).
A final thesis draft must be provided to the Examining Committee no later than 7 days prior to the scheduled defense date. The Master’s thesis defense is public; however, the audience may be asked to leave during Committee deliberations. Successful completion of Master’s thesis defense constitutes passing the Master’s Final Exam.

Non-Thesis Option
Students who choose the non-thesis option can complete the research requirement through directed research. A minimum of 3 hours of non-thesis directed research credit must be completed. Before students can enroll in non-thesis directed research, the Program of Study form must have been approved by the student’s Master’s Advisory Committee and filed with the GPC. At that time, the student’s Master’s Advisory Committee must agree upon the faculty supervisor and a tentative topic for the student’s directed research. The faculty supervisor for the directed research will provide a syllabus, which describes specific expectations including a measurable outcome or product to be considered for the Master’s Final Examination.

The research product for non-thesis students can take one of the four forms:

- A poster or oral presentation accepted and scheduled for a professional conference at the state level or beyond*
- An article manuscript submitted to a peer-reviewed journal**
- A grant proposal submitted to an external funding agency**
- A presentation at a departmental or university-wide research event*

* Student must be an author and presenter. Presentations must include clear objective statement, background literature, description of methodology, summary of findings, and discussion. Proof of presentation along with the presentation slides or a legible image of the poster should be made available to the Examining Committee. Presentations at the university-level 3MT (Three-minute thesis) competition do not count. Presentations for credit in another course do not count.

** Student must be an author (of the manuscript) or co-investigator (of the grant proposal). Proof of submission along with the manuscript/proposal draft should be made available to the Examining Committee. Submission of an abstract or a paper submitted for a conference proceeding does not count.

Non-thesis students should consult with the Chair of the Examining Committee to schedule the date by which the Committee will examine their research products and documents of proof. GS7 – Authorization for Final Oral/Written Examination form should be submitted to the Graduate School no later than 14 days prior to this date. For non-thesis students, GS7 form may not be submitted until the student has completed all other degree requirements including 3 hours of non-thesis directed research, or the student is expected to complete them in the semester during which the final exam takes place.
**MASTER’S COMPREHENSIVE EXAMINATIONS**

Master’s comprehensive exam requirement is waived for students who pursue and complete the thesis.

All non-thesis students in M.S. in FNS must successfully complete the Master’s comprehensive exams. To be eligible to sit for Master’s comprehensive exams, students must have completed the 18 hours of core courses, be in good standing with no I grade, have filed the Program of Study form with the GPC, and be enrolled for at least 3 credit hours during the semester in which they take the comps. Exams will take place in March and October each year. Students who intend to sit for the exam should notify the GPC in writing by February 15th (for March exams) or September 15th (for October exams).

The exam questions will be determined by the Master’s Comprehensive Exam Committee and will test the students on the 6 core courses. The Master’s Comprehensive Exam Committee will grade the exams and notify the student of the result within one week and one day.

Students must score an overall average of 80% or higher and a minimum 70% in each subject to pass the comprehensive exams. Those who meet the overall minimum but do not meet the subject-level minimum, or those who meet the subject-level minimum but not the overall minimum will be allowed a one-time rewrite during the same semester. After a failed attempt, students can retake the exams in another semester. Up to two attempts are allowed before the status is changed to non-degree standing.

**TIME LIMIT**

The Graduate School imposes a six-year time limit on all work toward a Master’s degree.

**MASTER’S ADMISSION CRITERIA**

Criteria for admission into the M.S. in FNS program are:

a. **Baccalaureate Degree:** For full admission into the M.S. in FNS program, a baccalaureate degree in dietetics, nutrition, food service management, hospitality management, or a related area with the following prerequisites or equivalents is required:
   - NHM 111 – ServSafe (or ServSafe certification granted from the National Restaurant Association)
   - NHM 211/213 – Principles of Food Preparation/Food Preparation Lab
• NHM 311 – Nutrition
• NHM 441/461 – Hospitality Systems Management or Foodservice Systems Management
• NHM 410 – Medical Nutrition Therapy I (Applicants for Nutrition Services emphasis only)
• GB 350 – Essentials of Marketing (Applicants for Hospitality Management emphasis only)
• NHM 466 or Mgmt 383 – Human Resource Development in Services or Human Resource Management (Applicants for Hospitality Management emphasis only)
• Accy 202 – Introduction to Accounting Principles II (Applicants for Hospitality Management emphasis only)

b. Grade-Point Average (GPA): A cumulative undergraduate GPA of 3.0 or higher over the last 60 hours or over the entire transcript is recommended for admission.

c. Graduate Record Examination (GRE): Scores of no less than 150 on the verbal and 150 on the quantitative divisions are preferred.

d. Clear Goals, readiness and motivation to pursue the graduate degree

e. English Proficiency (Only for the applicants whose native language is not English) must meet the Graduate School’s admission criteria.

The Graduate Committee of the Department of Nutrition and Hospitality Management will review complete applications received by the deadline. Incomplete applications or materials received after the deadline may not be reviewed. Competitive applicants relative to the pool of applicants will be recommended for admission. In addition to the above criteria, other factors such as strength of letters of recommendation, work experience, availability of resources within the department, and equity considerations to enhance the diversity of the department may be taken into consideration.
M.S. Program Checklist

Before enrolling in NHM 693 (Directed Research), 697 (Thesis), or 699 (Supervised Practice) for the first time

- Full-standing admission status
- 18 hours of core courses completed
- GPA 3.0 or above with no pending “I” grade
- Appointment of the Master’s Advisory Committee requested
- Program of Study form submitted to the GPC

Before thesis proposal

- 18 hours of core courses completed
- GPA 3.0 or above with no pending “I” grade
- Currently enrolled in 3 graduate credit hours (or 1 hour in summer)
- IRB applications prepared if applicable
- 3 hours of thesis credit either completed or currently enrolled

Before thesis defense

- Thesis proposal approved in a previous semester or academic term
- Currently enrolled in 3 graduate credit hours (or 1 hour in summer)
- GS-7 form submitted to the Graduate School at least 14 days prior to the date of defense
- Final thesis document provided to the Examining Committee at least 7 days prior to the defense date
- 6 hours of thesis credit either completed or currently being completed

Before scheduling the Master’s Comprehensive Exams

- 18 hours of core courses completed
- GPA 3.0 or above with no pending “I” grade
- Currently enrolled in 3 graduate credit hours
- Appointment of the Master’s Advisory Committee requested online
- Program of Study form submitted to the GPC
- Intent to sit for the Comps emailed to the GPC by 2/15 (for March exam) or 9/15 (for October exam)

Before the non-thesis final exam

- Passed Master’s Comprehensive Exams
- Currently enrolled in 3 graduate credit hours (or 1 hour in summer)
- GS-7 form submitted to the Graduate School at least 14 days prior to the date of final exam
- 3 hours of directed research either completed or currently enrolled
GENERAL INFORMATION

APPLICATION PROCESS
Applications for admission to the graduate programs must be submitted to the University of Mississippi Graduate School through the online application process.

In order to be assured consideration, the following materials must be on file in the Graduate School prior to the deadline. Application deadlines are:

<table>
<thead>
<tr>
<th>Degree Program</th>
<th>Deadline for Fall admission</th>
<th>Deadline for Spring admission</th>
</tr>
</thead>
<tbody>
<tr>
<td>M.S. in Food and Nutrition Services</td>
<td>January 15</td>
<td>October 15</td>
</tr>
<tr>
<td>Ph.D. in Nutrition and Hospitality Management</td>
<td>January 15 (continuous)</td>
<td>October 15 (continuous)</td>
</tr>
<tr>
<td>Online Masters in Hospitality Management</td>
<td>Continuous</td>
<td>Continuous</td>
</tr>
</tbody>
</table>

In case these dates fall on a weekend or legal holiday, the deadlines are automatically extended to the next business day.

1. An online application completed through the Graduate School website http://gradschool.olemiss.edu
2. A statement of Purpose not exceeding 1,000 words, which clearly demonstrates your interest in the field, readiness to pursue a graduate degree, academic and professional goals, and how joining the graduate program will help you meet these goals. This document should be uploaded as an attachment to the Graduate School online application.
3. Names and contact information of references should be specified on the online Graduate School application. The Graduate School’s online reference system sends requests to the recommenders. Two (2) references are required for application to the master’s program, and three (3) references are required for application to the doctoral program.
4. Official GRE scores taken within 5 years of applying to the graduate program sent to the Graduate School.
5. Official transcripts from all institutions where a degree was obtained AND from institutions attended for any graduate work sent to the Graduate School
6. Resume or CV (optional)
7. Official English proficiency test scores (Only if the applicant’s native language is not English): TOEFL, IELTS, or Pearson’s Test of Academic English scores within 2 years of applying to the graduate program sent to the Graduate School
Instructions for submitting application materials such as test scores and transcripts can be found on the Graduate School website. For questions about the submission process, contact the Graduate School (Email: gschool@olemiss.edu). For questions about the MS in FNS and PhD in NHM programs, contact NHM Graduate Program Coordinator Dr. Yunhee Chang at chang@olemiss.edu. For questions about the Online MS in HM program, contact NHM Online Graduate Program Coordinator Dr. Jim Taylor at jtaylor@olemiss.edu.

*Applicants for M.S. in FNS who will also be pursuing the Coordinated Program must fulfill the additional requirements:

- An online application form for the CP must be submitted at http://nhm.olemiss.edu/graduate-program/coordinated_program/.
- The same Statement of Purpose document will be used for both Graduate School application as well as CP application. Applicants who are pursuing the CP should also address CP-related expectations in the document submitted in their Graduate School application.
- The letters received through the Graduate School application system will be forwarded to the CP application for review and there is no need to send duplicate letters directly to the CP director.

STATUSES OF ADMISSION

Applicants whose admission credentials do not meet those expected for Full-standing status may be admitted in the Conditional or Qualifying status.

Students whose academic records indicate that they may have difficulty performing satisfactorily at the graduate level may be conditionally admitted. Students admitted in the Conditional status are required to obtain a 3.0 GPA during their first 9 hours of graduate coursework in order to be advanced to Full-standing. Students who fail to advance to Full-standing will be changed to Non-degree II status.

Students satisfying all other admission requirements but lacking certain prerequisites may be admitted for a Qualifying period of up to 12 months, during which time the deficiencies must be completed with a minimum GPA of 3.0. Students admitted in the Qualifying status will be given a list of undergraduate courses (ranging from 3 to 15 hours) to be taken to make them eligible for consideration for Conditional or Full-
standing status. *Qualifying* status may limit graduate assistantship opportunities. Remedial courses may not be counted toward degree requirements.

See [Graduate School policies](#) for more information about categories of admissions.

**DISMISSAL**

A minimum cumulative GPA of 3.0 is required to maintain the full standing status. Failure to maintain a full standing for two consecutive semesters results in a status change to non-degree seeking and dismissal from the program. If a student’s cumulative GPA reaches below 3.0 and it would be arithmetically impossible to bring the cumulative GPA to 3.0 or above in the subsequent semester, the student can be dismissed from the program upon the GPC recommendation.

**FINANCIAL SUPPORT**

The Department of Nutrition and Hospitality Management offers administrative, research, and teaching assistantships. These are competitive. Interested applicants can fill out the [application for graduate assistantships](#) and email it to chang@olemiss.edu with a resume.

More information about financial aid for graduate students can be found [here](#). Students interested in scholarships or other financial aid may contact the [Office of Financial Aid](#).
